

# Earth Day – Plant a Tree

## Sum or Difference

a game for 2-4 players      Need: counters, 2 Dice

Players take turns to roll the 2 dice, and find the total or the difference of these 2 numbers. They then place a marker over this number on the board. For example, if a player throws 2 and 6 the player could cover 4 (6-2) or 8 (2+6). Play continues until one of the seedlings is surrounded with a counter on each of the spaces around it. The player who places the last counter to 'plant' the tree is the winner.

# Earth Day – Save a Tree

## Doubles and Triples

a game for 2-4 players      Need: counters, 2 Dice

Players take turns to roll the 2 dice and then add these numbers together.

They can choose to either double the sum (multiply it by 2) or triple the number (multiply it by 3). They then place a counter over the answer.

For example, if a player throws 2 and 5, the player could cover either 14 or 21.

Play continues until one of the trees is surrounded with a counter on each of the spaces around it. The player who places the last marker to 'save' this tree is the winner.

	6		10		14		18	
4	Tree	8	Tree	12	Tree	16	Tree	20
22	Tree	9	Tree	21	Tree	30	Tree	36
	24		15		27		33	
33	Tree	30	Tree	27	Tree	21	Tree	4
